2012 State of Small Family Child Care Homes in Michigan

Strengths

- All family child care homes caring for one or more unrelated children are required to be licensed.
- Routine and complaint based inspections are unannounced.
- Child care licensing staff are required to have a master's degree in early childhood education or related field.
- Inspection and complaint reports are available online.
- Family child care providers are required to undergo a background check that includes using fingerprints for state and federal records check and a check of the child abuse and neglect registry, but a check of the sex offender registry is not required.
- Providers must offer toys/materials addressing all developmental domains, except culturally sensitive materials.
- Providers must offer activities addressing all developmental domains.
- Health standards address 10 of 10 basic standards.
- Safety standards address 10 of 10 basic standards.
- Providers are permitted to care for no more than two infants and toddlers when older children are present.

Weaknesses

- The state does not inspect the family child care home before licensing.
- Inspections of family child care homes are only conducted for 10 percent of homes each year.
- Child care licensing staff have an average caseload of 168 programs.
- Providers are required to complete only six hours of initial training plus CPR and first aid.
- Providers are required to complete only 10 hours of annual training plus CPR and first aid.

Recommendations

- Conduct an initial inspection before licensing.
- Increase inspections of family child care homes to at least once a year for all family child care homes.
- Reduce the caseload for licensing inspectors.
- Include a check of the sex offender registry in background checks.
- Increase the initial training requirements for providers to 40 hours of comprehensive initial training, including CPR and first aid.
- Increase the annual training requirements for providers to 24 hours, including CPR and first aid renewal.

Notes:

The total maximum points a state could receive is 150. Ranks out of 52, including 50 states, the District of Columbia, and the Department of Defense (DoD).

States received a score of 0 if they do not regulate small family child care homes (care for up to 6 children) OR if the number of children the provider could care for before licensing, including the provider's own children, is seven or more.

States receive a score of 0 if they do not inspect before licensing. Credit given for inspections by licensing, fire, safety and health authorities.

Eight areas of initial training are: child development, child abuse prevention, learning activities, health and safety, child guidance, business practices, CPR, first aid.

Eight different types of toys and materials include those for: motor development, language/literacy, art, math, science, dramatic play, books for all ages, materials that are culturally sensitive.

Eight types of learning opportunities are: plan a variety of learning activities, read to children, introduce math concepts, offer creative activities, offer dramatic play, offer active play, encourage self-help skills, limit use of television.

Ten health areas are: hand washing, meals and snacks, immunizations, exclusion of ill children, universal health precautions, administration of medications, toxic substances, diapering/toileting, home sanitation and weekend/evening care.

Ten safety areas are: SIDS prevention, appropriate discipline, crib safety, electrical hazards, protection from bodies of water, fire drills/emergency plans, outdoor playground surfaces, supervision, door locks/safety gates and transportation. States that permit corporal punishment score a zero in the safety area.
