Provider's children under 12 counted in threshold? No
Inspection before being licensed? Yes

Oversight Standards	Meets
1. Family child care homes should be inspected before licensing, at least quarterly, and when there is a complaint.	
2. Programs to licensing staff ratio does not exceed 50:1.	
3. Licensing staff have a bachelor's degree in early childhood education or a related field.	
4. Online inspection and complaint reports are available to parents on the Internet.	

Program Standards	Meets
1. A background check is required for family child care providers, substitutes and assistants, adolescent family members over 12 years of age, and license-exempt providers receiving subsidies.	
2. A background check includes using fingerprints to check state and federal records, and check of child abuse registry, sex offender registry, and juvenile records.	
3. Family child care providers are required to have a high school degree or GED and have the Child Development Associate (CDA) credential, college courses in early childhood education or an associate degree initially or within three years of starting to provide child care.	
4. Family child care providers are required to have initial training in child development, child abuse prevention, learning activities, health and safety, child guidance, business practices, CPR and first aid.	
5. Family child care providers are required to have 24 hours or more annual training.	
6. Family child care providers are required to have toys and materials in eight specific developmental domains.	

Program Standards	Meets
7. Family child care providers are required to offer activities in eight specific developmental domains.	
8. Family child care providers are required to follow requirements addressing 10 health areas.	
9. Family child care providers are required to follow requirements addressing 10 safety areas.	
10. Family child care providers are required to communicate with parents, have contracts with parents, allow parents access to the home, inform parents about the use of substitutes and give written policies to parents.	
11. Family child care providers are required to limit total number of children in a small family child care home based on ages of children in care.	

2012 State of Small Family Child Care Homes in Oregon

Strengths

- All family child care homes are inspected once a year.
- Routine and complaint based inspections are unannounced.
- Health standards address nine of 10 basic standards. Providers are not required to address universal health precautions.
- Providers are permitted to care for no more than two infants and toddlers when older children are present.

Weaknesses

- Child care licensing staff have an average caseload of 285 programs.
- Child care licensing staff are not required to have a bachelor's degree.
- Inspection reports are not available online.
- Providers are required to undergo background checks, but these checks are completed without a state fingerprint check.
- Providers are not required to have a high school degree or GED.
- Providers are required to complete only seven hours of initial training plus CPR and first aid.
- Providers are required to complete only four hours of annual training plus CPR and first aid.
- Providers are not required to offer toys/materials in any specific developmental domains.
- Requirements do not address the following safety standards: crib safety and outdoor playground surfaces.

Recommendations

- Require every family child care home caring for one unrelated child or more for pay to be licensed.
- Reduce the caseload for licensing inspectors.
- Require licensing staff to have a bachelor's degree in early childhood education or related field.
- Make inspection reports available online.
- Require the use of state fingerprints for checking individuals' criminal history.
- Require providers to have a high school degree/GED and complete a Child Development Associate (CDA) credential or higher within three years.
- Increase the initial training requirements for providers to 40 hours of comprehensive initial training, including CPR and first aid.
- Increase the annual training requirements for providers to 24 hours, including CPR and first aid renewal.
- Require providers to offer toys and materials in all of the recommended developmental domains.
- Require providers to address all recommended safety standards.

Notes:

The total maximum points a state could receive is 150. Ranks out of 52, including 50 states, the District of Columbia, and the Department of Defense (DoD).

States received a score of 0 if they do not regulate small family child care homes (care for up to 6 children) OR if the number of children the provider could care for before licensing, including the provider's own children, is seven or more.

States receive a score of 0 if they do not inspect before licensing. Credit given for inspections by licensing, fire, safety and health authorities.

Eight areas of initial training are: child development, child abuse prevention, learning activities, health and safety, child guidance, business practices, CPR, first aid.

Eight different types of toys and materials include those for: motor development, language/literacy, art, math, science, dramatic play, books for all ages, materials that are culturally sensitive.

Eight types of learning opportunities are: plan a variety of learning activities, read to children, introduce math concepts, offer creative activities, offer dramatic play, offer active play, encourage self-help skills, limit use of television.

Ten health areas are: hand washing, meals and snacks, immunizations, exclusion of ill children, universal health precautions, administration of medications, toxic substances, diapering/toileting, home sanitation and weekend/evening care.

Ten safety areas are: SIDS prevention, appropriate discipline, crib safety, electrical hazards, protection from bodies of water, fire drills/emergency plans, outdoor playground surfaces, supervision, door locks/safety gates and transportation. States that permit corporal punishment score a zero in the safety area.
